

TRANSPARENCY UNDER THE PARIS AGREEMENT

Road to the first reporting
by December 2024

United Nations
Climate Change Secretariat

Enhanced transparency framework – key milestones

Enhanced transparency framework – implementation basis (1)

Adopted in 2018 in Katowice

**Decision 18/CMA.1 and
its annex**

**Modalities, procedures and
guidelines for the
transparency framework for
action and support referred
to in Article 13 of the Paris
Agreement**

Chapter 1: Introduction

Chapter II: **National inventory report** of anthropogenic emissions by sources and removals by sinks of greenhouse gases

Chapter III: Information necessary to **track progress made in implementing and achieving nationally determined contributions** under Article 4 of the Paris Agreement

Chapter IV: Information related to **climate change impacts and adaptation** under Article 7 of the Paris Agreement

Chapter V: Information on financial, technology development and transfer and capacity-building **support provided and mobilized** under Articles 9–11 of the Paris Agreement

Chapter VI: Information on financial, technology development and transfer and capacity-building **support needed and received** under Articles 9–11 of the Paris Agreement

Chapter VII: Technical expert review

Chapter VIII: Facilitative, multilateral consideration of progress

Enhanced transparency framework – implementation basis (2)

United Nations
Climate Change Secretariat

Adopted in 2021 in Glasgow

Common reporting tables for the electronic reporting of greenhouse gas inventories

Common tabular formats for the electronic reporting of the information necessary to track progress made in implementing and achieving nationally determined contributions

Common tabular formats for the electronic reporting of the information on financial, technology development and transfer and capacity-building support provided and mobilized, as well as support needed and received

Outlines for the biennial transparency report, national inventory document and technical expert review report

Training programme for technical experts participating in the technical expert review of biennial transparency reports

Key milestones and deliverable - implementation of the ETF package: 2022

United Nations
Climate Change Secretariat

2022

Support to developing country Parties

January:

- Initiate development of training programme
- Update CGE membership
- Initiate development of reporting tools

April:

- Party submissions - options for voluntary review of adaptation

June:

- SBSTA to consider options for voluntary review of adaptation

November:

- Status report to SBSTA on progress of reporting tools and training programme
- New CMA item on provision of financial & technical support to developing countries for reporting and capacity-building

Key milestones and deliverable - implementation of the ETF package: 2023

United Nations
Climate Change Secretariat

2023

Support to developing country Parties

January:

- Preparing ETF practices and processes

March:

- Overview course available for technical expert reviewers

June:

1. Test version of reporting tools
 2. Status report to SBSTA
 3. Organize regular training
 4. Develop user-manuals
 5. Training/advice on use of tools
- Possible first reviews

September:

- All training courses available in line with para 150

November

- Status report to SBSTA

December:

- Party submission on experience in first use of tools

Key milestones and deliverable - implementation of the ETF package: 2024

United Nations
Climate Change Secretariat

2024

Support to developing country Parties

June:

1. Final version of reporting tools
 2. Technical paper on submissions on use of the test version of the tool
 3. Continue to organize regular trainings
 4. Final version of user-manuals for reporting tools
 5. Request to IPCC to organize a technical training on its inventory software
- Status report to SBSTA (if tools and training programme are not finished)

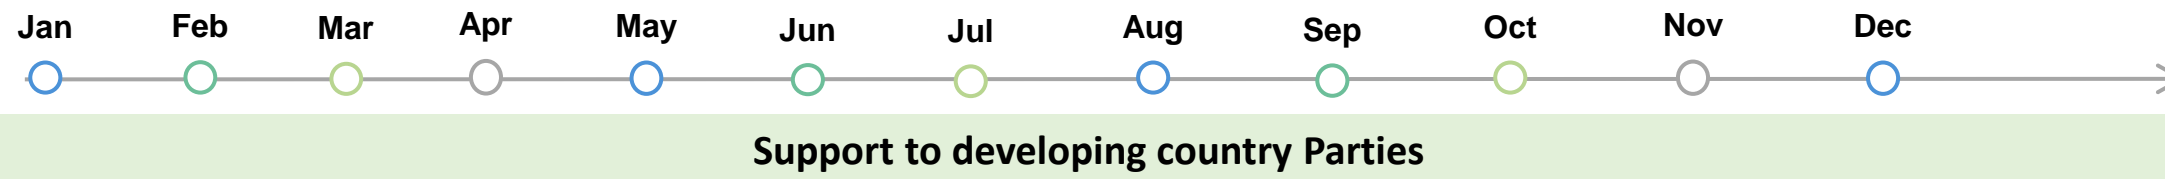

November

- Prepare report on how comments on the test version were considered for the final version

Key milestones and deliverable - implementation of the ETF package: 2025

2025

June:

- Launch FMCP (for Parties undergoing TER in 2024)

November:

- Launch FMCP (for Parties undergoing TER in 1st half of 2025)

December:

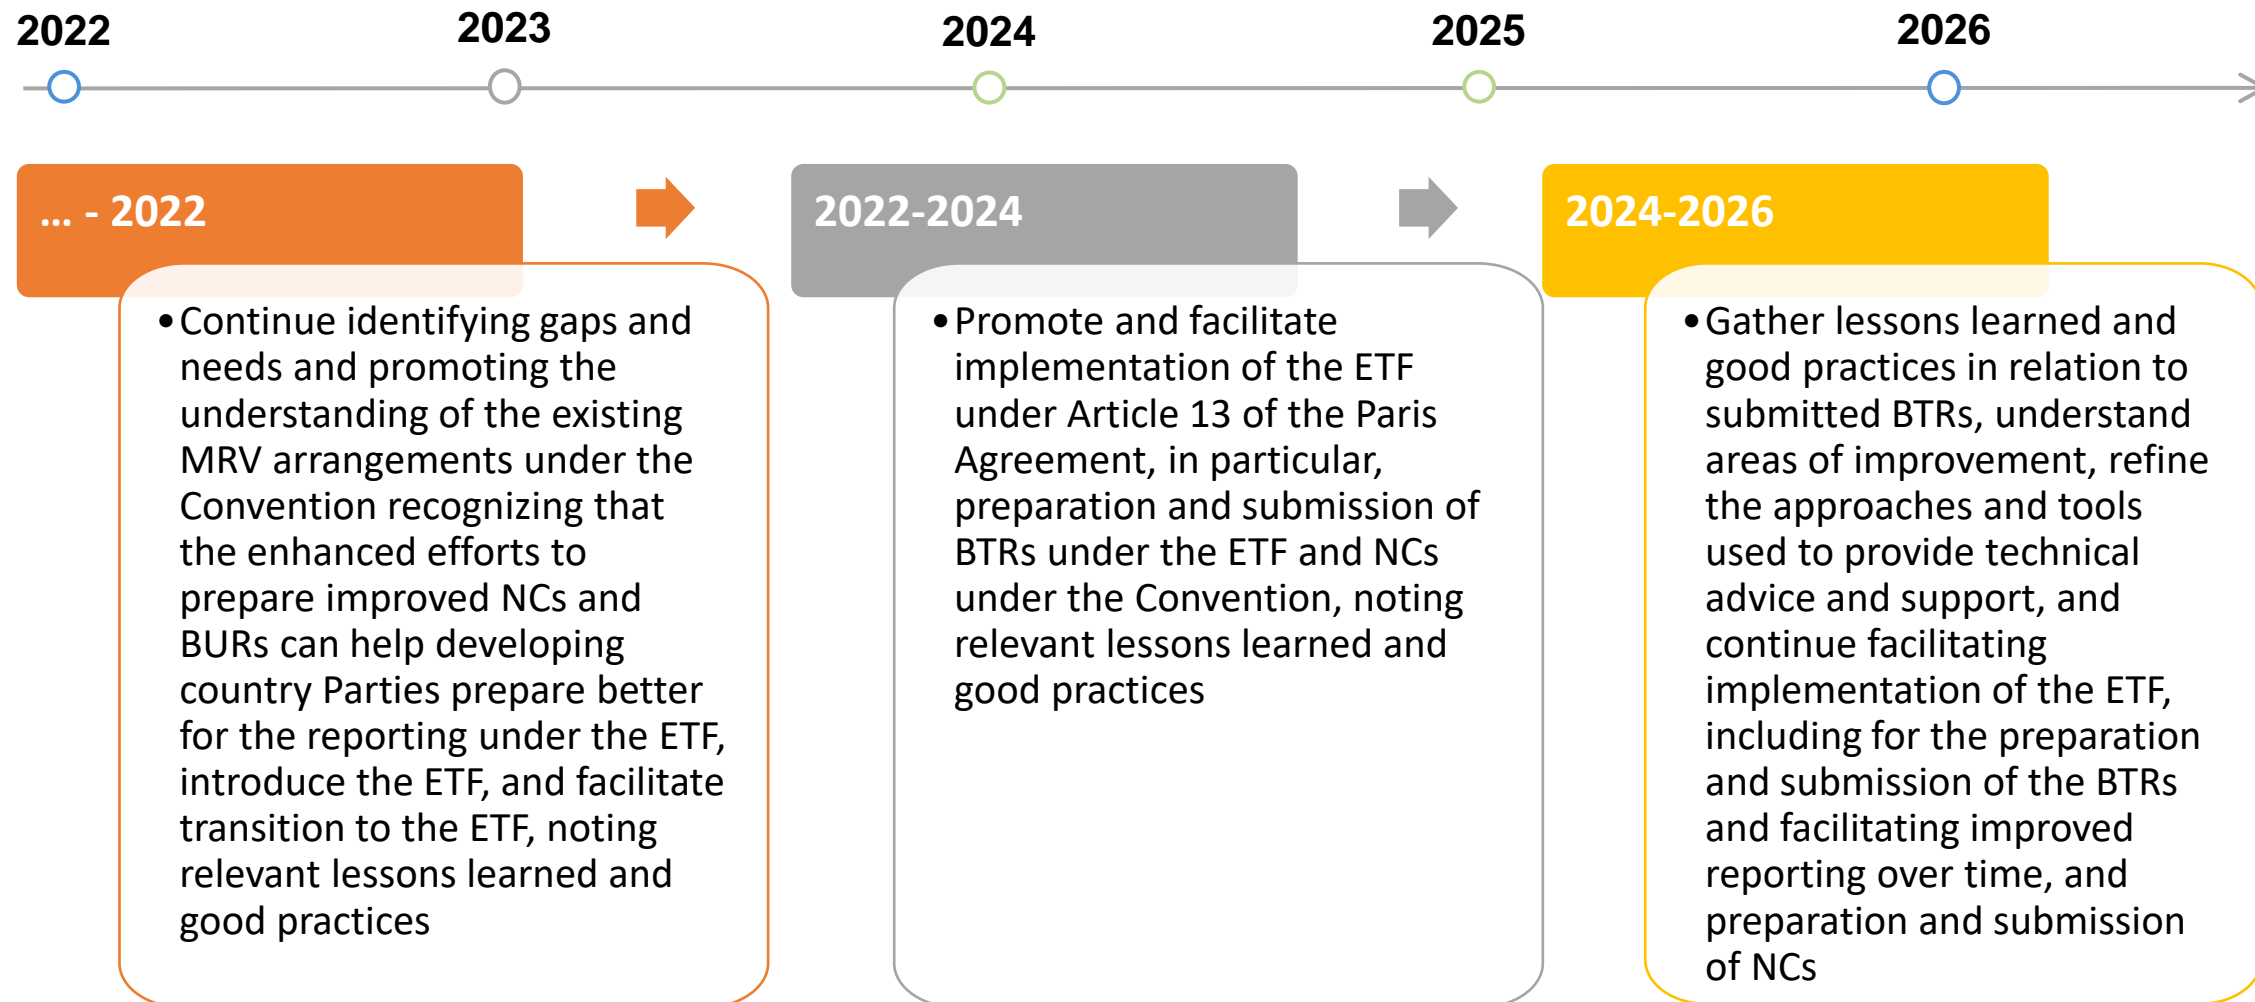

- Interactive web portal for FTC information, by year and parameter

No specific timeline mandated:

- Facilitate interoperability with IPCC software
- Mapping exercise b/w 2006 IPCC GL and CRTs

Mandated tasks for future years:

- Revision of MPGs

- ❖ All necessary operational details are in place now
- ❖ Raise awareness nationally to inform and engage the key stakeholders
- ❖ Use existing MRV arrangements as a starting point or foundation
- ❖ GEF has already put in place arrangements for the financial resources for BTRs
- ❖ Start accessing funds from the GEF (if needed) as soon as possible

Thank you
